Dear all,

It makes us proud as we announce that Just Frenchat has crossed yet another milestone.

On the 1st of March 2023, Just Frenchat completed 1 year of its establishment. We take this occasion to thank each of you for being a part of this extraordinary tale.

Began as a small firm with 5 schools and 6 staff members in April 2022, which has risen up to stand tall amidst its peers, now with more than 16 schools and 12 employees and extended staff.

Without the support of our excellent team, all this development would not have been possible. It is their contribution that has helped us to reach this height of success, for which Just Frenchat shall forever remain indebted.

Special thanks to Mrs. Colette Pruvot, Academic Director of Just Frenchat, for her support and guidance.

We are grateful to our partner schools, clients, and customers who trusted us to provide them with immaculate service. Their demands, challenges, and feedback have provided us with the impetus to forge ahead and reach out to the world.

We plan to keep our business relationship growing and will continue to provide you with nothing less than the best. With your support, Just Frenchat wishes to reach new heights in the days to come.

Also, it gives me immense pleasure to introduce Mr. Edmond Colman as Pedagogical Coordinator, a French Native from Benin with over 24 years of experience as Officer in Republic of Benin (Government), French Professor at various institutions throughout the world, has been trained by University of Le Mans France and Alliance Française. He is responsible for Teacher's Training, Curriculum Development and Administration.

Best Regards,

Mr. Mahendra Vikram Shah
Founder & Director
